1957 WHOLESALE QUANTITY PRICE LIST

CLYDE ROBIN
CARMEL VALLEY, CALIFORNIA
U.S.A.

PRICE LIST FOR THE TRADE ONLY
DO NOT DISTRIBUTE THROUGH RETAIL CHANNELS

THIS PRICE LIST CANCELS ALL PREVIOUS PRICE LISTS

PLEASE READ BEFORE ORDERING

No seeds on this price list will be collected unless orders for same are in my hands prior to May 15, 1957. I have neither the time nor the energy to collect and stockpile quantities of seeds unless I have advance orders for them.

PRICES

All seeds are listed at the ounce rate. The price for a pound of any item is at 15 times the ounce rate. All prices are subject to change. Half ounce rates are at half the ounce price. Do not order lesser quantities than one half ounce from this price list. For lesser quantities than one half ounce please see my retail packet catalog. Write for a copy if you do not have one.

DISCOUNTS

All orders paid for in full and in advance may gain a ten percent discount from the whole.

PAYMENT

All orders must be accompanied by payment of twenty five percent or more of the entire order which will constitute a collecting authorization for me. The balance of your payment may be made within ten days after receipt of your seeds if you are in the trade. Remittances may be by personal check or money order within the United States and Canada and U. S. possessions. From other locations, please use international money orders or bank drafts.

Let me repeat, I will not accept orders nor collect seeds for which I do not receive twenty five percent payment of the total order in advance. I search the entire North American continent for my seeds and will not collect without this percentage deposit.

POSTAGE

All orders within the continental limits of the United States and Canada are sent postpaid. For all other destinations, postage will be included in the invoice. Airmail, if desired, to any destination will be included in invoice.

SHIPPING

Customers outside the United States please send import license number, if necessary, to secure shipment of your order through your customs. This applies especially to H. M. Customs, England.

SALES TAX AND LICENSE NUMBER FOR RESALE

California customers ONLY send four percent sales tax with orders unless seeds are for resale. - in which case send your resale license number.

ORDERING

Minimum order accepted from this wholesale price list is \$10.00 or other monetary exchange dollar equivalent. All orders filled as soon as seeds are collected, processed and/or cured. Substitutions are not made. Refunds will be sent promptly if I cannot collect the seeds you have ordered.
